## POLICIES & EXPECTATIONS

### **Alcohol Policy**

The College hopes the Alcohol Policy will encourage students to make responsible decisions about the use of alcoholic beverages. The policy is intended to promote safe, legal and healthy decisions related to alcohol and social interaction. We recognize that our students are responsible adults and believe that students should behave in a manner that is not disruptive or endangering to themselves or others and is following state and local laws regarding the possession, consumption, sale, and delivery of alcohol.

UVA Wise does not encourage the use of alcoholic beverages and does not condone the illegal or otherwise irresponsible use of alcohol. In accordance with State and Federal law, the College prohibits the unlawful possession, sale, use or distribution of alcohol on College property or at College-sponsored functions.

UVA Wise Campus Police has primary responsibility for the enforcement of State underage drinking laws.

All members of the College community are expected to know and act in accordance with Virginia State laws concerning the purchase, possession, consumption, sales and storage of alcoholic beverages. In this connection, members of the College community are reminded of the following:

Unauthorized manufacture, sale, distribution and possession of "controlled substances" (illegal drugs), including cocaine, LSD, and prescription drugs, are prohibited by both State and Federal laws and are punishable by severe penalties.

Students who violate State or Federal drug laws may be referred by College authorities for criminal prosecution and, if convicted, may be subject to the penalties described herein. UVA Wise Campus Police has primary responsibility for the enforcement of State and Federal drug laws.

The abuse of alcohol and other drugs by students, regardless of age and of location (on-campus or off-campus), is prohibited by the Student Code of Conduct. The College can, and will, impose disciplinary sanctions for violations. The Faculty Handbook and the Classified & University Staff Employee Handbook address violations for College employees.

The College strongly encourages students and employees to voluntarily obtain assistance for dependency or abuse problems before such behavior results in an arrest and/or disciplinary referral which may result in separation from the institution.

The use of, or addiction to, alcohol, marijuana, or controlled substances is not considered an excuse for violations of the Student Code of Conduct or employee expectations, and will not be a mitigating factor in the application of appropriate disciplinary sanctions for such violations.

These policies encompass mandatory drug testing, sanctions as a result of positive tests, programs of education relative to drug and alcohol use and abuse, and counseling.

### Federal And Commonwealth of Virginia Penalties – Alcohol

Federal and Virginia law penalize the unlawful possession, sale, use or distribution of alcohol. Penalties vary based on many factors including specific charges (i.e. whether charges are felonies or misdemeanors).

Misdemeanor Penalties
<ul style="list-style-type: none"> <li>▪ Confinement in jail for up to twelve (12) months.</li> <li>▪ Fines up to \$2,500.</li> </ul>
Felony Penalties
<ul style="list-style-type: none"> <li>▪ Imprisonment from one (1) to five (5) years</li> </ul> <p>Or, in the discretion of the jury, or the court trying the case without a jury:</p> <ul style="list-style-type: none"> <li>▪ Confinement in jail for no more than twelve (12) months.</li> <li>▪ Fines up to \$2,500.</li> </ul>

### Federal And Commonwealth of Virginia Penalties – Drugs

Federal and Virginia law penalizes the unlawful manufacturing, distribution, use, and possession of controlled substances including prescription drugs and synthetic designer drugs such as “bath salts,” “plant food,” and “carpet cleaner,” which contain mixtures of many different chemicals including those that resemble cocaine, methamphetamine, and MDMA or “ecstasy.” Federal law makes the distribution of “analogue” substances marketed for human consumption illegal if those substances are chemically similar to a scheduled illegal drug and have the same pharmacological effect on a user.

The penalties vary based on many factors, including: (i) the type and amount of the drug involved, and (ii) whether there is intent to distribute. Virginia law specifically prohibits the sale, gift, distribution, and possession of synthetic cannabinoids, which carry penalties as a Class 6 felony.

Possible Penalties (Federal Law)
<ul style="list-style-type: none"> <li>▪ First offense penalties ranging from less than twelve (12) months to life imprisonment.</li> <li>▪ Fines up to \$10 million.</li> <li>▪ Forfeiture of property, including vehicles used to possess, transport, or conceal a controlled substance.</li> <li>▪ The denial of professional licenses or federal benefits (such as student loans).</li> </ul>
<p>The punishment for the possession and/or distribution of a controlled substance analogue is:</p> <ul style="list-style-type: none"> <li>▪ Up to twenty (20) years in prison</li> <li>▪ Fine of up to \$1 million.</li> </ul>
<p>Convictions under Virginia law may be misdemeanor or felony crimes with sanctions ranging from:</p> <ul style="list-style-type: none"> <li>▪ Probation to life imprisonment</li> <li>▪ Fine(s) of up to \$1 million.</li> </ul>

Federal law holds that any person who distributes, possesses with intent to distribute, or manufactures a controlled substance on or within one thousand feet of an educational facility is subject to a doubling of the applicable maximum punishments and fines. A similar Virginia law carries sanctions of between one- and five-years imprisonment and up to a \$100,000 fine for similar violations.

## HEALTH RISKS

The negative physical and mental effects of the use of alcohol and other drugs are well-documented. Use of these drugs may cause: blackouts, poisoning and overdose; physical and psychological dependence; damage to vital organs such as the brain, heart and liver; inability to learn and remember information; and psychological problems including depression, psychosis and severe anxiety. Risks associated with specific drugs are described later in this section. ## PROGRAMS AND EDUCATION

### CAVS BEFORE ONE MORE (CBOM) CAMPAIGN

CAVS Before One More is an ongoing awareness campaign initiated by the Office of Diversity, Equity & Inclusion (called the Office of Compliance, Conduct, & Inclusion at the time of the program’s creation) in Fall of 2016. This campaign focuses on alcohol and/or drug awareness and education.

**Pictured:** A student wearing ‘drunk goggles’ while completing a field sobriety test with a police officer. This raises awareness of how truly impaired a person feels when they are intoxicated.

### NATIONAL CAMPUS SAFETY AWARENESS MONTH (NCSAM)

NCSAM is a campus safety awareness initiative that occurs each September. This includes alcohol, drug, other personal safety education, and awareness information, game announcements, residence hall and campus community programming and more.

NCSAM includes this annual notification, the Annual Security and Fire Safety Report, and a campus climate survey filled out by the campus community in Fall of even-year semesters.

**Pictured:** An event from NCSAM called ‘Coffee with a Cop,’ where students were invited to enjoy a free cup of coffee from Books and Brew and build relationships with local law enforcement.

### GORDIE DAY EVENTS

Gordie Day Events are in fall and spring semesters and promote information from the *Gordie Center for Substance Abuse Prevention*, a resource center located at UVA and accessible to UVA Wise for programming materials. Educational information shared includes alcoholic content of common drinks, standard drink sizes, binge drinking, and safer drinking tips.

### CAVS BEFORE ONE MORE: SAFE HOMECOMING, HALLOWEEN, AND SPRING BREAK

**HOMECOMING  
2022**  
UVA WISE / September 12-17, 2022

As a component of the ongoing Cavs Before One More campaign, the Office for Diversity, Equity, & Inclusion holds two associated annual events. The first is Safe Homecoming. During the week of homecoming, a variety of events take place to educate the campus community on the dangers of alcohol use, binge drinking, drinking and driving, alcohol addiction, and other related topics through daily email quick-facts, content PSA release, game announcements, and a community resource collaborative hands-on program with giveaways.

Safe Halloween is similarly designed to promote safe celebration of Halloween with educational information, displays, and encourages participants to sign pledges promoting the role of an active bystander to prevent alcohol overdose and committing to seek help for or from others as necessary. Safe Halloween concludes the campus community's Red Flag Week.

Safe Spring Break is designed to promote education for the campus community on the health and safety issues that may arise for college students during spring break, such as alcohol abuse, impaired driving, road trip safety, decisions about sexual activity, and healthy sun exposure. This information will be distributed to the campus community through email quick facts, BACCHUS Network Safe Spring Break Toolkit, Fatal Vision Goggles, SUM-IT-CUP® Complete activities, and a community resource collaborative hands-on program with giveaways.

### RED FLAG CAMPAIGN

The Red Flag Campaign is an evidence-based bystander intervention strategy used to address and prevent sexual assault, dating violence, and stalking on college campuses. Events for 2022 will include email quick facts, the display of Red Flags across campus, a PSA release on the connection between alcohol use and sexual assault, blue light walk, consent education, game announcements, and the One Love Foundation's Escalation Workshop.

**Pictured:** A display in the entryway of the David J. Prior Convocation Center that reminds the campus community and all who enter that Cavaliers respect Cavaliers.

### NATIONAL DRUG & ALCOHOL FACTS WEEK

Launched in 2010 by scientists at the National Institute on Drug Abuse (NIDA), this week-long January campaign is focused on counteracting the myths about drugs and alcohol found on the internet, social media, TV, movie, music, or from friends.
